Instant  
Boiling  
Chilled  
Sparkling  
Hot & cold

With unrivalled expertise in filtered boiling, chilled and sparkling water taps, Zip Water UK is known throughout Britain for being home to the world's most advanced drinking water appliances.

Since 1947, we've been advancing and perfecting our technology, and today are proud to bring you the purest, cleanest tasting water possible. But our drive to innovate doesn't just stop with great tasting water. Easy to use, maintain and energy efficient, the Zip HydroTap is also the world's safest instant boiling water tap, with boiling isolation and safety lock features unique to us.

With the launch of our Design Range and extended choice of finish and colour options, we now not only bring you the latest in technology, but also in design.

Advanced functionality, made beautifully, Zip HydroTaps are the first and last word in versatility, style and cutting edge technology, ready to transform the way you drink and cook forever.

## Design at its best

able to complement any kitchen design – from traditional to contemporary – Zip's iconic Design Range comprises three design-led taps, each created with the interior design enthusiast in mind. Meet the Arc, the Cube and the Elite.

Timeless and enduringly classic, the Arc is an elegant choice. With its curved 'swan neck', it channels the Victorian design era, yet sits just as happily in a modern kitchen as it does a period home. For a truly contemporary twist on a classic, the Cube is a modern kitchen's dream. A design statement in its own right, the angular Cube echoes a square shape, which is softened by its rounded corners. And finally, the Elite's compact design and clean lines are sure to please if minimalist and understated is more your style in the heart of the home.

As practical as they are beautiful, all three taps can be situated over-sink or on-font, and all benefit from the advanced functionality of the HydroTap; giving you your choice of filtered boiling, chilled and sparkling water instantly.

matching mixer tap

## Celsius, pure versatility

Highly functional, our Celsius 3-in-1 mixer tap is ideal for those who appreciate versatility at its best. Able to adapt to a multitude of kitchen activities, the dual-function Celsius offers you unfiltered hot and cold water – perfect for rinsing dishes, watering plants and washing hands – as well as the choice of either filtered boiling, filtered chilled or filtered chilled and sparkling water. So, whether you opt for a function that lets you fill up that cafetiere of coffee or glass of cool, crisp drinking water, you'll only need one tap over the sink.

Available in the classic Arc or contemporary Cube design, the Celsius not only delivers on performance, but also looks at home in any design-led kitchen.

## Five water options, one stunning design

Offering the absolute best in both style and substance, the revolutionary HydroTap All-in-One Celsius Arc delivers all five water types in one stylish design. That's filtered boiling, chilled and sparkling water, plus unfiltered hot and cold water, from just one, beautifully designed spout.

Sitting at the very top of Zip's HydroTap range, this new innovation has been created specifically for the home. Eliminating the need for an additional mixer tap, kettle and bottles of still and carbonated water, it works to de-clutter the kitchen sink area and free up much needed storage and fridge space. And, even better, it's available in all 12 of Zip's finishes, offering interior enthusiasts serious design scope.

## Filtration

Drink better and feel better with our world-class filtration system. Delivering the purest tasting water in an instant, our G4 product range boasts a market-leading and highly cost-efficient filtration system that offers x25 better filtration than a water filter jug,\* leaving you with water that's crisp, clear and refreshing.

It's also free from dirt and contaminants that other systems may not remove. And while the taste and odour of chlorine is removed, the fluoride is retained, making each and every glass more enjoyable and better for you.

## Platinum finish options

While our standard finish options are anything but standard, we know that the demand for a greater range of kitchen tap finishes has never been higher.

Alongside our standard bright chrome, brushed chrome, matt black and gloss black finishes, our Platinum Design Range features eight additional trend-led colours and finishes. Whether your kitchen's craving a Scandi-inspired rose gold, an industrial gunmetal grey or a classic platinum, you can now let your tap choice reflect your personal design preferences and even match the existing metal accents in your kitchen.

Available on the entire Design Range of HydroTaps, including the Celsius, choose from rose gold, brushed rose gold, gold, brushed gold, platinum, gunmetal, nickel or brushed nickel.

## Dedicated support, warranty and aftercare

From installation to maintenance, Zip's team will be by your side from the very start.

With over 70 full-time engineering experts on hand across the UK – always fully stocked with spares – we're ready to assist with any maintenance query. What's more, all Zip appliances are covered by a comprehensive parts and labour warranty. And for that ultimate peace of mind, Zip's all-encompassing HydroCare package eliminates any stress that maintenance may carry. With everything you need to enjoy hassle-free pure-tasting water, HydroCare ensures your HydroTap not only remains in perfect condition, but operates at peak performance.

Visit [zipwater.co.uk](https://www.zipwater.co.uk) for further warranty details.

**It's water,  
any way you want it**

At Zip, we know just how different lifestyles can be. Perhaps you're the busy parents of a bustling family home, where time is of the essence and safety is vital; or someone who strives to live a healthy lifestyle, whereby improving hydration and drinking filtered, healthy water is key; or maybe you're the chef of the house, who appreciates the convenience of cooking with instant boiling water. Whatever your lifestyle, the beauty of choosing Zip is that our products can be tailored to suit your needs.

With filtered boiling, chilled and sparkling, and hot and cold water, any way you want it, we offer the widest choice of water options available on the market. And now with an extended design range, and multiple colour and finish options, we can also tailor your tap to your personal style. It's water and design at its best.
