

It's water. Refreshed.

Zip HydroChill[®]

High-capacity chilled
drinking water systems

Zip HydroChill is a new range of flexible, high-capacity, chilled water systems.

Using a HydroChill system completely removes the need for disposable, expensive plastic water bottles. So, unlimited hydration for employees and guests not only means a healthier, more productive workplace but a greener business.

Perfect for high demand

With the ability to cater for as much filtered chilled, ambient¹ and sparkling water as required, HydroChill offers a wide range of drinking water options, no matter the size of your organisation.

Eco-friendly

Great-tasting water, instantly, without an environmentally-damaging plastic bottle in sight.

Pure tasting

Thanks to Zip MicroPurity high capacity filtration, which filters out contaminants and ensures the water is as clean-tasting as possible.

A huge range of options

Counter-top or under-counter chillers, with the capability to provide up to 280 litres of ambient, chilled or sparkling water an hour from a single unit.

Wellness in the workplace

Staying hydrated at work not only helps employees stay healthy, it also positively impacts on productivity.² Drinking water regularly throughout the day helps you stay alert, improves concentration and means you're less likely to get stressed.

The sustainable choice

UP TO

Number of 750ml bottles of filtered chilled water that can be dispensed by Zip HydroChill per hour

¹Ambient' describes the temperature of the water where there is no additional heating or chilling to the incoming cold water supply.

²You may need to run the tap for a while to get it to a suitable temperature. ³1% dehydration results in 12% drop in productivity. Source: Wasterlund et al 2004.

Reuse. Refill. Refresh.

The horrifying damage that plastic does to the environment has been well-publicised, with particular emphasis on the over-reliance on single-use plastic bottles.

In addition, a recent study has also discovered plastic particles in bottled water, opening up wider questions about the purity of bottled water and what health effects these particles may have on those ingesting them.

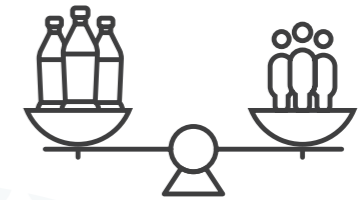

As the person responsible for providing drinking water solutions for the workplace or other commercial environments, you can have a direct impact on reducing that business' plastic waste. By saying no to one-use plastic bottles and choosing a filtered drinking water system with refillable glass bottles, you are doing your bit for the environment and the health of the user.

To demonstrate our commitment to helping businesses reduce their plastic waste, we've launched the Reuse Refill Refresh campaign. For more information, please visit zipcommercial.co.uk/RRR

The Zip HydroCare service plan

To ensure your HydroChill product continues to provide great-tasting water every day we recommend signing up for our HydroCare service plan.

HydroCare is your insurance against any breakdown that lies outside of the warranty, saving you time and money in the long run.

Speak to one of our expert team on 0345 6 005 005 to sign up to HydroCare and ensure you're getting the very best out of your product.

Your HydroCare Service Plan includes a bespoke pre-agreed schedule that covers:

- Annual service
- Replacement of all filters
- Full appliance inspection
- System sanitisation
- Technical support
- Full breakdown cover including parts and labour.

HydroChill rental

By renting a HydroChill product you receive a number of additional benefits to make the entire process easier.

Why rent?

#01 Affordable

Fixed monthly cost with no hidden fees

#02 Installation included

No need to worry about getting your tap up and running

#03 Flexible rental package

Choose a rental package between one to five years, with the option to buy your HydroChill at the end of the contract

#04 Hassle-free service

Over 80 full time engineers across the UK, making Zip's first time fix rates some of the best in the country

#05 Full warranty and maintenance

Benefit from our HydroCare service plan with filter and parts replacement, offering that extra peace of mind.

HydroChill warranty

The HydroChill range is covered by a 2-year on site parts and labour warranty.
