Thomas House, The Office Group

70 years of innovation

With unrivalled expertise in filtered boiling, chilled and sparkling water, Zip Water is known globally for being home to the world's most advanced drinking water systems.

Founded in Australia in 1947, we've always been innovators, advancing and perfecting our drinking water technology for decades. Today, we provide businesses and homes in more than 70 countries with an extensive range of high performance systems to suit any requirement.

Thousands of offices, hospitals, schools, restaurants and residential properties are now benefitting from the purest tasting and cleanest water possible thanks to our cutting edge water filtration technology. And we're proud of the positive impact our drinking water systems have on people's health, wellbeing and productivity.

Transforming the way organisations provide drinking water for employees and visitors alike, our products marry state-of-the-art functionality with modern design, while also helping businesses save valuable time and money.

What's more, our commitment to sustainability means that these same businesses can rely on Zip Water to provide energy efficient, eco-conscious systems that tackle global issues, such as reducing damaging plastic bottle waste.

Think drinking water, think Zip Water.

John Doumani, CEO Zip Industries

TEN REASONS WHY THE ZIP HYDROTAP IS...

The world's most advanced drinking water system

Drinking water is one of life's simple necessities that we often take for granted. However, you may be surprised to discover just how much of a positive impact the right drinking water solution can have, from improved wellbeing and productivity, to sustainability and cost savings.

One thing is for sure – tap water as we know it is a thing of the past. You have many options when it comes to mains-fed drinking water systems. We want to ensure that you have the information and support you need to make the right choice.

As creators of the world's most advanced drinking water system, our expertise in filtered boiling, chilled and sparkling water is second to none. World-leading water filtration, cutting-edge energy efficiency technology, unique safety features and a trusted track record across the globe mean you can be confident when choosing a Zip HydroTap.

Want to know more? Read on for the ten reasons to choose Zip.

Featured product

Zip HydroTap All-in-One Classic in bright chrome finish
151 Wardour Street, The Office Group

#01

The widest choice of drinking water systems

Boiling, chilled and sparkling plus hot and cold water, any way you want it. We offer the widest choice of water options and drinking water systems on the market. So, whether you need a complete refreshment solution for a busy multi-story office or chilled, filtered drinking water for a hospital or school, we can help.

You're not limited when it comes to capacity either — with models that can dispense up to 240 cups of boiling water and 175 cups of chilled and sparkling water per hour — businesses of all sizes are catered for.

Featured product
Zip HydroTap Celsius Arc
in brushed rose gold finish

#02

First-class filtration

Thanks to our advanced MicroPurity filtration technology, Zip drinking water systems deliver the cleanest, safest and purest tasting water on the market, free from odours and contamination.

In fact, our flagship product, the HydroTap G4, offers 25 times better filtration than a water filter jug, making it the best of any instant filtered water tap in the world.

Unlike traditional carbon blocks, our premium filters combine carbon and sediment blocks into one cartridge. They not only remove dirt, bacteria, microplastics and contaminants from the water that other systems may not remove, but also up to 97% of chlorine and 99.9% of microbiological cysts if present.

#03

The sustainable choice

In this day and age the importance of sustainability for businesses and consumers cannot be underestimated. Increasingly, sustainability is aligned with the objectives and ethos of many organisations – with Zip Water UK being no exception.

You have the unique opportunity to positively impact the planet by choosing a drinking water solution that is energy efficient and eliminates the need to buy single-use plastic bottled water.

Responsible manufacturing

Organisational dedication to sustainability

ISO 14001

Low impact design

Complies with RoHS EU Directive 2002/95/EC

**World-class environmental credentials**

#04

Innovative Technology

Leading the way in both performance and functionality, the technology behind our range of drinking water solutions is truly cutting edge, delivering the purest, safest and cleanest tasting water possible.

Zip's HydroTap fourth generation G4 technology has been perfected over 70 years of development and innovation. Our drinking water systems are not only a breeze to maintain, but include exclusive features to save organisations energy, water and time.

G4

SMART.
SUSTAINABLE.
TECHNOLOGY.

Save time and energy

Did you know that office staff waste an average of four working days a year making hot drinks with a kettle?* With the convenience of our reliable instant boiling water systems, businesses can improve efficiency while reducing running costs.

It's not just employees who will be more efficient – all of our products have been designed to handle any level of demand, from busy workplaces to bustling family kitchens, all the while saving power. Our cutting-edge energy efficient technology keeps the water flowing without wasting a drop.

HYDROTAP BENEFITS:

Has an auto-sleep function that powers down the unit after a period of inactivity

Maintains its water temperature, so doesn't waste energy

Eliminates the need for **energy-guzzling kettles**

#06

Home and workplace wellbeing

Hydration has a huge impact on health and wellbeing. Whether in the office or at home, users notice a difference from having the convenience of filtered water at the touch of a button.

Staying hydrated has never been easier with our range of drinking water solutions for home and work, offering irresistible filtered chilled, sparkling and boiling water, in an instant.

Those who drink more water enjoy a host of mental and physical health benefits; from improved brain function, cardiovascular, muscle and joint health, right the way through to keeping the body cool, skin supple and cleansing toxins.

For businesses, it's no secret that drinking more filtered water increases concentration, reduces downtime and fuels creativity, all while keeping staff happy and healthy. Plus, providing a reliable, pure tasting drinking water solution in the office is sure to boost morale.

#07

Safe and accessible

All Zip products are designed to be completely safe and easy to use, with unique boiling water safety locks and cool touch technology. You can be confident that the end user can operate our systems safely, without needing to worry about spluttering steam.

We can also advise on accessibility, with a range of products that are compliant with the Equalities Act 2010 and Building Regulations Part M 2004. A number of sections in these regulations are relevant to drinking water systems and the measures that need to be taken to ensure those with disabilities can use them with minimum difficulty. We can supply accessibility levers and braille covers for the HydroTap Classic range, which are ideal for those with disabilities or limited dexterity.

Featured product

#08

Unparalleled design

Advanced functionality, made beautifully. With the widest choice of models, designs, colours and finishes on the market, Zip offers water and style at its best.

Gone are the days where poor design was excused if a product was functional. You can now choose a drinking water appliance that matches seamlessly with the design of any space or interior. This is essential in today's modern, stylish offices where the kitchen often doubles as a meeting space. That's why we recently launched our HydroTap design range to the commercial market, which is proving to be a massive hit.

#09

Support at every stage

We offer dedicated, expert support from the very start of your project, ensuring you specify the perfect drinking water solution, followed by stress-free installation.

All Zip systems are backed by a full warranty, which can be supplemented by HydroCare, our stress-free aftercare package. HydroCare allows for complete peace of mind, covering essential annual filter changes, servicing and scale management.

And with over 80 directly employed engineers, we have the largest support network in the UK, giving businesses and homeowners prompt, efficient service.

Trusted worldwide

The first and last word in commercial drinking water systems, Zip Water is backed by 70 years' experience and a team of experts that are dedicated to finding you the right solution. We hold numerous third party accreditations, building our image as a trusted brand across the globe.

We only provide the highest quality, most robust products, designed specifically for heavy demand environments. Our rigorous manufacturing standards mean that you can trust in the durability of every single system we produce.

Having worked with and supplied drinking water systems to a vast number of well-known brands, we hope you agree that our list of customers speaks for itself.

Case study: Sleeper Magazine HQ

Leading voice on global hotel design, development and architecture, Sleeper Magazine is a beautifully designed publication – requiring an equally stunning office space to inspire its staff. Creative design studio NoChintz was brought on board to create a stylish yet functional work environment, which included the addition of a new HydroTap.

The Sleeper Magazine office is located in the iconic heritage listed Strawberry Studios, Stockport, once frequented by Joy Division, Paul McCartney, The Stone Roses and The Smiths to name a few. Being sympathetic to the history of the building was important to NoChintz, who designed the space to include subtle features that hark back to the 90's music industry, with a modern twist.

PRODUCT
ZIP HYDROTAP CLASSIC

By assessing how the office works day-to-day, NoChintz's workspace team was able to build a co-working concept to encourage conversations between colleagues with zoned areas, flexible working solutions and comfortable breakout spaces.

A new large kitchen area was created, making the most of the office's open plan design. Light, bright and contemporary in style, the kitchen has become an important hub for staff. A Zip HydroTap Classic was chosen to keep the Sleeper team powered up with filtered boiling water for tea and coffee, and filtered chilled and sparkling water.

It's sleek, clean and incredibly convenient compared to the kettle – we don't have to queue for drinks anymore, so we can get on with more important things!

Becky Archacki, commercial director, Sleeper Magazine

Mixer Taps

Our Mixer Tap range has been created to match the exact shapes and finishes of the HydroTap Arc and Cube designs. This means you can choose a HydroTap with filtered boiling, chilled and sparkling water alongside a beautiful matching mixer tap that delivers unfiltered hot and cold water for washing up.

The Mixer Taps can be used alongside the HydroTap Classic, Arc, Cube or Elite to create a HydroTap 3-in-1, 4-in-1 or 5-in-1 model. Vented* and unvented options available to perfectly match your HydroTap:

- Filtered boiling, chilled and sparkling water (5-in-1)
- Filtered boiling and chilled (4-in-1)
- Filtered boiling and ambient (3-in-1)
- Filtered boiling (3-in-1)

*This option saves the cost of installing a separate hot water supply.

While our Standard finish options are anything but standard, we know that the demand for a greater range of tap finishes has never been higher.

That's why alongside our Standard finishes, our Platinum range of finishes features eight additional trend-led choices. So whether you're looking for a Scandinavian-inspired rose gold, an industrial gunmetal grey or a classic platinum, you can now choose a HydroTap that will match seamlessly with any interior style.

Filters and CO₂

Zip Water UK’s range of filters transform ordinary water into a form you will love. Our MicroPurity filtration technology is the most advanced on the market, producing crystal clear, great tasting water, free from odours and contamination including sediment, chlorine, heavy metals like lead, microplastics, bacteria and parasites (such as cryptosporidium and giardia).

We also recommend that those who live in a hard water area use a scale prevention filter to ensure the ongoing performance and longevity of your HydroTap. Our HydroCare plan manages this for the customer, along with annual filter changes and servicing. Find out more about HydroCare on page 44. Otherwise, customers can contact us direct to order filter replacements and we will deliver them direct to their door.

Residential

FL1100
Zip Scale Prevention Filter (for HydroTap Base Model)
High performance scale filtration, including taste and odour, for the HydroTap Base Model. Significantly reduces impurities greater than 1 micron.

93701
Zip 0.2 Micron Residential Filter (for HydroTap G4)
Our leading 0.2 micron MicroPurity filter gives you the safest, cleanest and purest tasting water available. Delivering 25 times better filtration than a standard water filter jug, it expertly removes contaminants greater than 0.2 microns.

FL170
Zip Scale Prevention Filter (for HydroTap G4)
Triple action limescale filtration cartridge for the HydroTap G4, essential in hard water areas to maintain product performance. Speak to our team if you're unsure about the water hardness in your location.

ZT400
Zip Food Grade CO₂ Canister
If you have a HydroTap that delivers sparkling water, you will need to replace the CO₂ canister when it runs out. Order online or over the phone.

Commercial

93702
ZIP MicroPurity™ HydroTap Filter For Work 0.2 Micron (for HydroTap G4)
Our ultimate filtration, the 0.2 micron MicroPurity filter ensures pure-tasting water which is clean and safe. With WRAS approval, specifiers can be sure that the filter carries all of the required endorsements.

93703
ZIP MicroPurity™ HydroTap Filter For Work HD 3 Micron (for HydroTap G4)
Providing efficient filtration for high-capacity models, Zip's 3 micron filter offers businesses the best filter lifespan, as well as great tasting water.

FL250, FL500, FL1000, FL1500, FL2000
Zip Scale Prevention Filters Up To 16,500 Litres (for HydroTap G4)
Available in a range of capacities from 1,700 litres to 16,500 litres, this high-performance scale filter improves the taste of water and increases the lifespan of your Zip product. A must for Zip products installed in hard water areas.

FL2300
Scale Filter Cartridge For Light Commercial Use (for HydroTap G4)
Ideal for light commercial use, this filter features triple action filtration to reduce water hardness and improve taste and odour.

FL3600
Scale Filter Cartridge For Normal Commercial Use (for HydroTap G4)
Replacement filter for more frequent use, this highly efficient filter removes particulates for clean, fresh water.

ZT402
0.2 Micron Filter Replacement Cartridge (for HydroTap G4)
This filter cartridge for HydroTap G4 models only removes sediment, chlorine, heavy metals like lead, impurities, plastic fibres, bacteria and parasites greater than 0.2 microns.

ZT002
Submicron Filter (for non-HydroTap G4 models)
Suitable for HydroTaps that are not G4 models, this filter reduces chlorine and contaminants to provide great-tasting water.

“I love the simplicity of a Zip HydroTap –
I haven’t got to wait for a kettle to boil
– I can just get on with cooking.”

Ian Haste
Haste’s Kitchen

Case study: Pip McCormac

EDITOR OF RED MAGAZINE AND AUTHOR
OF THE HERB AND FLOWER COOKBOOK

When interiors and food editor Pip McCormac made the decision to move back into his flat after renting it out for seven years, he knew it would take more than a lick of paint to make it feel like home again.

“I remember walking through the door and just feeling so deflated and uninspired. I loved my flat but couldn’t imagine how it would now be the space to get my creative juices flowing!”

Not only has Pip been a top journalist for the past 15 years, writing for the likes of Red, Elle Decoration and The Sunday Times Style Magazine, he is also the author of a cookbook. The Herb and Flower cookbook was born from Pip’s love of windowbox fayre, growing a whole host of plants and flowers – all for eating. With this in mind, the flat’s kitchen no longer suited Pip’s needs. Small and separate from the living room, it wasn’t conducive to social evenings cooking for friends.

Pip McCormac with his Zip
HydroTap Arc and matching
Mixer Tap

It was only after staying with friends who had a Zip HydroTap, that Pip realised his new kitchen wouldn’t be complete without one.

“My filtered boiling, chilled and sparkling HydroTap is used all the time. The chilled water encourages me to drink more water and the instant boiling water makes cooking processes so quick, especially when combined with my induction hob. Of course, I had to have a gold one to go with my colour scheme, and I also went with a matching mixer tap to complete the look.”

I’d never really considered that a boiling tap could have such an impact on daily life, but after using one for a weekend I was hooked!

Pip McCormac, Journalist and Author

Zip HydroCare®

HydroCare is our stress-free preventative maintenance plan, which will keep Zip products in the best possible working condition throughout their life, giving complete peace of mind.

Just like when you buy a car or invest in a new boiler, the Zip HydroTap will benefit from regular service intervals to maintain high performance levels and to keep the water it dispenses tasting great.

Rather than having to worry about essential servicing and filter changes, HydroCare has it all covered, leaving users to enjoy their HydroTap for many years to come.

Why choose HydroCare?

01 Fast and reliable	02 Save money
We have a fleet of over 80 fully trained, directly employed engineers across the UK.	HydroCare saves you money with every service while ensuring your product maintains its performance through its life.
03 Pure tasting water	04 Peace of mind
Regular filter changes, sanitisation and maintenance will ensure your Zip product continues to deliver pure-tasting water.	Take one thing off the to-do list with pre-scheduled services and filter changes.
05 Flexible	06 Expertise
HydroCare can be tailored to meet the exact needs of your home or business.	With almost 70 years' experience, Zip Water UK is the most trusted name in drinking water solutions.

Featured product Zip HydroTap Cube in platinum finish

HydroTap Base Model

For residential

The Zip HydroTap Base Model has all the style, function and convenience you'd expect from Zip for those with a more modest budget. Providing instant filtered boiling and ambient water at the touch of a button, the Base Model is available with either a Classic, Arc, Cube or Elite style tap in our range of standard finishes, including bright chrome, brushed chrome and matt black.

Featuring a compact command centre that's the smallest in Zip's HydroTap range, the base model is also great for kitchens with limited under-counter space. Users will benefit from scale filtration, improving the taste and odour of the water they drink and maintaining the performance of their HydroTap.

There is also the option of the HydroTap Base Model Celsius, which delivers filtered boiling water, as well as unfiltered hot and cold water from one tap, eliminating the need for an additional mixer tap for washing up.

The HydroTap Base Model is covered by a two year on site parts and labour warranty.*

Residential

*Terms and conditions apply.
**If a residential model HydroTap is installed in a commercial application this could invalidate the warranty

HydroTap G4

For commercial and residential

With filtered boiling, chilled and sparkling, and hot and cold water, any way you want it, the HydroTap G4 range offers the widest choice of water options available on the market.

Enjoy world-leading filtration technology that's 25 times better than a water filter jug, giving you crystal clear, pure tasting water that's free from contaminants, bacteria, heavy metals and microplastics.

The HydroTap G4 also boasts a number of advanced energy efficiency and safety features, such as Power-Pulse technology, 'sleep when dark' mode, boiling lock and cool touch tap.

With a vast selection of designs and colours – as well as the option of fitting it over-sink or on-font – you'll be spoilt for choice and benefit from a tap that not only delivers on performance, but also looks at home in any design-led kitchen. Choose from our Platinum range of premium finishes, including rose gold, brushed rose gold, gold, brushed gold, platinum, gunmetal, brushed nickel and nickel.

The Zip warranty guarantees the workmanship and quality of the system is up to the exacting standards that are associated with Zip products. The commercial HydroTap G4 comes with a two year on site parts and labour warranty, which covers the whole system, plus a further three years boiling tank only, excluding breakdowns caused by scale build-up.*

The residential HydroTap G4 comes with a three year warranty, including parts and labour, which covers the whole system. This is followed by a further two year warranty on the boiling tank only, excluding breakdowns caused by scale build up.*

When specifying a HydroTap G4 for a commercial project, you must select a commercial model, which has been designed to withstand the demands of these environments.
