# The Zip HydroTap Touch Free Wave

Can be installed over a sink or a font

Introducing the latest innovative and sleek addition to our flagship HydroTap Range.

The Zip HydroTap Touch Free Wave offers 100% touch-free dispensing of instant filtered boiling, chilled and sparkling water. To operate, the user simply holds their hand within the sensor range. The tap also features a unique safety lock for the dispensing of boiling water, where two sensors must be activated at once.

Available water functions:

## How it works

## Why choose the new Zip HydroTap Touch Free Wave?

### Touch-free technology

Zip HydroTap Touch Free Wave uses smart infrared sensors to activate the tap to dispense boiling, chilled and sparkling water, all without touching the tap.

### MicroPurity™ filtration

Thanks to our 0.2 micron MicroPurity™ filtration technology, the HydroTap offers 25 times more effective filtration than a standard water filter jug - making it the best of any instant filtered water tap in the world.

### Auto-Diagnostics

An advanced auto-diagnostics system continuously monitors your HydroTap's performance and displays notifications via the main operating screen on the command centre.

### Unique safety features

Boiling water is delivered smoothly with no spluttering and minimal steam, with a safety lock to prevent accidental dispensing.

### Power-Pulse™ Technology

Our innovative Power-Pulse™ technology saves energy by maintaining the boiling temperature.

### Air-cooled system

Our unique air cooled refrigeration system is 100% water efficient, unlike other water cooled systems.

# The Zip HydroChill HC03 Touch-Free

## Floor-standing

Our new mains-fed, touch-free floor-standing water dispenser provides staff and visitors contactless access to chilled and ambient filtered drinking water. This system offers a suitable solution for a variety of areas in the workplace, from receptions to meeting rooms and corridors.

### Key features

01

Nano silver surface coating kills 99.9% of bacteria in 24 hours

02

Integrated UV sterilisation technology at dispense point

03

Large dispense area of 280mm high allows for the filling of sports bottles and carafes

04

Integrated taste filtration system

05

Automatic drip tray alert when full

06

Uses R600 refrigerant gas which has 0% global warming potential

# The Zip HydroBoil Touch-Free Adaptor

## Wall-mounted

Product code	95213
--------------	-------

The touch free adaptor for the wall-mounted Zip HydroBoil is a simple and low-cost solution for access to contactless boiling water.

The adaptor is designed to allow for the easy touch-free filling of mugs - by pushing back on the handle with the vessel - and can be easily removed and reattached as required. The adaptor is available for both HydroBoil and EconoBoil models with varying tank capacities. A great solution for 'back-of-house' areas and office kitchen spaces.

\* Not compatible with HydroBoil Plus.

### Key features

- + Simple to install and operate
- + Touch free dispensing of boiling water
- + Manufactured from grade 304 stainless steel which is corrosion resistant, hard wearing and long lasting. This durability makes it robust enough for regular cleaning and sanitising
- + Compatible with all models of EconoBoil and HydroBoil\*

# The Instanta SureFlow Touch-Free Adaptor

Instanta Sureflow Touch-Free Adaptor for wall-mounted and counter top models

Product code	XTPA/1
--------------	--------

Suitable for both the Counter Top and Wall Mounted models, the simple to install accessory enables users to dispense boiling water without having to touch the handle. Instead, with the adaptor sitting over the handle, water is dispensed by pushing back on it with a cup. Designed to help minimise the risks of cross contamination from hands-on operation, the convenient adaptor is easily removable for pot filling and is robust enough for regular cleaning and sanitising. The adaptor is compatible with the majority of models in the SureFlow Counter Top and Wall Mounted ranges.

•Excluding CTSV135T/18 and push button models.

Instanta, part of the Zip Water family, have been supplying the catering, barista and service industry with innovative water systems for over 60 years. Instanta recently added two touch-free boiling water solutions - counter-top and wall-mounted systems - to their expert range.

# The Instanta SureFlow Touch-Free Counter-Top Boiler

## Counter-top

The SureFlow Touch Free Counter Top Boiler is a 100% touch-free boiling water solution. Built for convenience, the clever system gives you the choice of on-demand or pre-programmed timed water dispensing, depending on what is most suitable for your business or facility and an integrated safety beam feature ensures users are safe.

## Key features

Touch-free dispense

Top-up feature

Easy install, service and cleaning

Safety light beam and messaging

Product code	DB1000TF
--------------	----------

## How it works

01

Once boiler has heated up to the correct pre-set temperature, the LCD display changes from red to white and reads 'READY'.

02

Place a vessel within the recessed cup area. This breaks the safety light beam which in turn, sends a signal to the dispense sensor.

03

On-demand water is dispensed for as long the sensor is activated by the presence of the operator's hand.

Or you can choose to have a pre-set measured dose of water is dispensed by passing a hand or finger in front of the sensor (within 25mm).

# The Instanta SureFlow Touch-Free On-Wall Boiler

Product code	WMS6TF
--------------	--------

## Key features

The new touch-free wall-mounted boiler utilises clever infrared sensors to provide a 100% contactless solution for the delivery of instant boiling water. Boasting the option for on-demand or timed dispense the new model is both hygienic and convenient.

Touch Free

Choice of water dispense mode - on demand or timed

100% touch-free activated dispense

Safety light beam and messaging

Simple on-wall installation

Adjustable water temperature

CLIENT  
OVERBURY PLC

SECTOR  
COMMERCIAL CONSTRUCTION AND FIT-OUT

LOCATION  
LONDON

RANGE  
ZIP HYDROTAP TOUCH FREE WAVE

Having had a Zip HydroTap installed in their London head office for a number of years, Overbury - a long standing client of Zip Water's and one of the UK's leading fit-out companies - is one of the first in the country to have their existing product upgraded to the new HydroTap Touch Free Wave as a direct response to the COVID-19 pandemic.

Offering contactless access to instant, filtered boiling, chilled and sparkling drinking water, the new HydroTap Touch Free Wave helps reduce contact points in the workplace, something Jackie Kendrick, PA to the board of directors, is thrilled about. "During these difficult times having one less touch point to worry about is a blessing!"

"Having had the benefits of a Zip HydroTap for some time and enjoyed the pure taste of the drinking water it produces - I particularly like the chilled sparkling water - the touch-free upgrade is perfect for current times and the future."

PA to the board of directors | Overbury

"Having had the benefits of a Zip HydroTap for some time and enjoyed the pure taste of the drinking water it produces - I particularly like the chilled sparkling water - the touch-free upgrade is perfect for current times and the future."

The team are looking forward to getting back to the office when it is safe to do so and Jackie is certain the new touch-free HydroTap will be a keen talking point among colleagues, as well as a product they will be recommending to their own clients.

CLIENT  
THE HIPPODROME CASINO

SECTOR  
HOTELS, RESTAURANTS, BARS, CAFES

LOCATION  
LONDON

RANGE  
HYDROCHILL TOUCH FREE

“As always, we were particularly impressed with the all-round friendliness and helpfulness of the Zip team. They have a very proactive approach to solving problems and finding solutions. We’ve had a lot of great feedback from the staff since the installation - as with the other HydroChill models, people really like the taste of the water produced “

Food & Beverage Director | The Hippodrome

Home to one of the most popular casinos in the UK, staff at the Hippodrome in London’s West End were looking for ways to reopen their doors safely for the late summer months following the lockdown caused by the COVID-19 pandemic in March (2020).

When choosing products for the new canteen - and having already experienced the benefits of under-counter Zip HydroChill HC50s throughout the site - The Hippodrome decided to specify a brand-new floor-standing HydroChill HC03 touch-free dispenser to ensure staff could stay hydrated. “We use under-counter Zip HydroChills throughout the Hippodrome and have always found them very reliable. We’ve always been impressed with the taste of the water and the output available, so it made sense for us to go with the brand we trust,” explains Mike Haydon, the Hippodrome’s food and beverage director. “The new HydroChill is a touch-free dispenser so it means we can still access filtered chilled and ambient water but don’t have to worry about cross-contamination every time it is used. It’s very easy to use and is capable of keeping up with the high demand. It also allows us to ditch expensive plastic bottled water which is not good for the environment.

# HydroCare service plans

Your drinking water system is an integral part of everyday life in your busy workplace.

Just like any crucial equipment, it’s important to have peace of mind that when the time comes to change the filter, service your system or if you need us for anything else you are back up and running as quickly as possible with minimal inconvenience. Whatever your business needs, we have a comprehensive service plan to match.

## HydroCare for HydroTap

Taste filter replacement and sanitisation

System replacement

Parts and labour

Safety and system check

Unlimited call outs

Annual inspection

Planned services

Priority response available

Limescale management

## HydroCare for your other Zip and Instanta drinking water systems

Maintaining all your other Zip products to ensure they operate at peak performance is one less thing to worry about with our HydroCare plans.

Whether a HydroBoil or HydroChill, we have a plan designed to give you complete peace of mind. Plans cover all the requirements you would expect including servicing, sanitisation and filter change (where required).

➔ **Learn more about HydroCare**

The features above are dependant on the chosen HydroCare plan and not all are available in all geographical locations – please ask us for details. HydroCare service plans are only available for HydroTaps less than 7 years old. Other options are available if your HydroTap is older than 7 years - please ask us for more details.
