Sector: Residential

Product: HydroTap Arc in brushed gold

The brief

- To create a comforting family kitchen space.
- To banish cold silvers in favour of warm metallics.

The solution

When one of the UK's top Instagram interiors influencers chose to renovate her "dark and drab" kitchen, she knew it had to feature a Zip HydroTap Arc in brushed gold. Dispensing filtered boiling, chilled and sparkling water, Erica Davies and her family have been busy putting the tap to good use - from speeding up cooking to making instant cups of tea and healthy sparkling drinks for her children.
