

# Father of Daughters

Zip adds new level of convenience and style to online content creator's kitchen renovation

**Location:** Kent

**Client:** Father of Daughters

**Sector:** Residential

**Product:** HydroTap Arc in brushed gold with matching mixer tap

## The brief

- A family friendly but stylish boiling water tap for the ultimate in convenience.
- A tap that offers safety features.

## The solution

A tap that prioritises safety through unique boiling water safety locks and cool touch technology, Father of Daughters - otherwise known as Simon Hooper - chose to specify a stylish HydroTap Arc with matching mixer tap in brushed gold for his family kitchen. Being time-poor, the family love the convenience of hot water on tap - being able to cook pasta quickly or make a cup of tea saves valuable minutes.

## The results

"It's all about convenience. I have days where I work from home so it's great to be able to have hot drinks within seconds. The filtered ambient water encourages us all to drink more water as it actually tastes nice and we don't need to buy and store bottled water."

Simon Hooper, Online Content Creator
