

IM Properties

Zip HydroTaps help IM Properties achieve wellbeing and sustainability goals

Location: Midlands

Client: IM Properties

Sector: Commercial

Product: HydroTap Classic in matt black

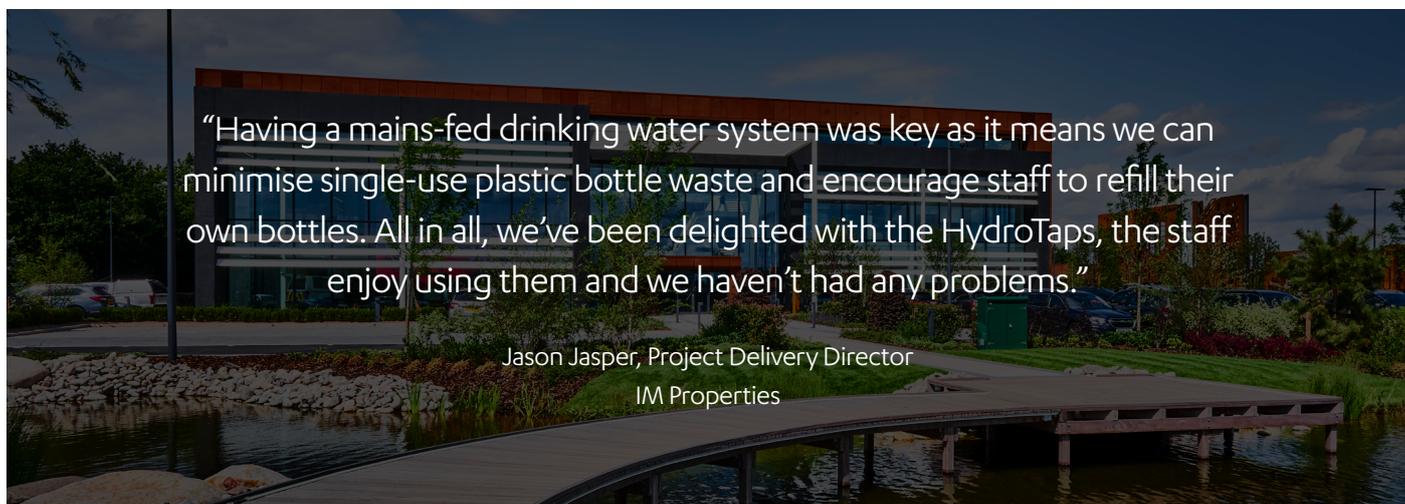

The brief

- New high-quality drinking water solutions for IM Group's headquarters.
- A 'one stop shop' for drinking water needs.
- Needs to meet the building's wellbeing and sustainability goals.

The solution

Nine Zip HydroTap Classics were installed in IM Group's new headquarters, providing instant access to both highly filtered boiling and chilled water. The taps also align perfectly with the building's wellbeing and sustainability goals - the mains-fed system helps to minimise plastic bottle waste while the filtered chilled water encourages users to refill and refresh, maintaining hydration levels.
