

# House Curious

Interior stylist and Instagrammer reduces single-use plastic waste while retaining style in her beautiful home

**Location:** London

**Client:** House Curious

**Sector:** Residential

**Product:** HydroTap All-in-One Arc in brushed gold

## The brief

- A stylish do it all tap was needed for a family home that also doubles up as a film and photoshoot venue.
- Highly filtered chilled water to eradicate the need for bottled alternatives.

## The solution

Time-saving, convenient and stylish - Sommer Pyne was asking for a lot from her dream 'do it all' tap. Luckily, upon discovering the styles and finishes on offer at Zip, she chose the HydroTap All-in-One Arc in brushed gold to fit seamlessly with her envy-inducing nature inspired kitchen. An added bonus, the crisp filtered chilled water meant she could get rid of her 'plastic guilt'.

## The results

"The choice of styles and colours Zip has available is incredible! I love the fact that I just have one tap to do everything - filtered boiling, chilled and sparkling water as well as hot and cold for washing up - as it means I can retain my uncluttered style and I no longer have 'plastic guilt'."
