

Shooting Star Children's Hospice

Children's hospice benefits from Zip HydroTap

Location: Hampton

Client: Shooting Star Children's Hospice

Sector: Commercial

Product: HydroTap Arc in bright chrome

The brief

- To make the communal area at their hospice in Hampton an inviting space where families could spend time together relaxing, eating and socialising.
- Exciting yet practical and safe products for complete peace of mind.

The solution

Wanting to transform the communal area at Shooting Star House in Hampton, vital children's charity Shooting Star Children's Hospice called on corporate fundraiser and partner Area to help them select products that could make the space visually exciting but also practical and safe, conforming to strict hospice guidelines. Having specified Zip for previous projects, they knew a HydroTap Arc in bright chrome would be the perfect solution for the drinks station, enabling families to make drinks quickly with complete peace of mind.

The results

"The HydroTap means families can make drinks instantly without waiting for a kettle to boil, and thanks to the tap's safety features such as the boiling isolation mode and cool-touch tap, users can enjoy complete peace of mind."
