

Leicht Contracts for The Purelake Group

The Zip HydroTap Celsius Arc chosen for new Purelake luxury London development

Location: London

Client: Leicht Contracts for The Purelake Group

Sector: Residential

Product: HydroTap Celsius Arc in matt black

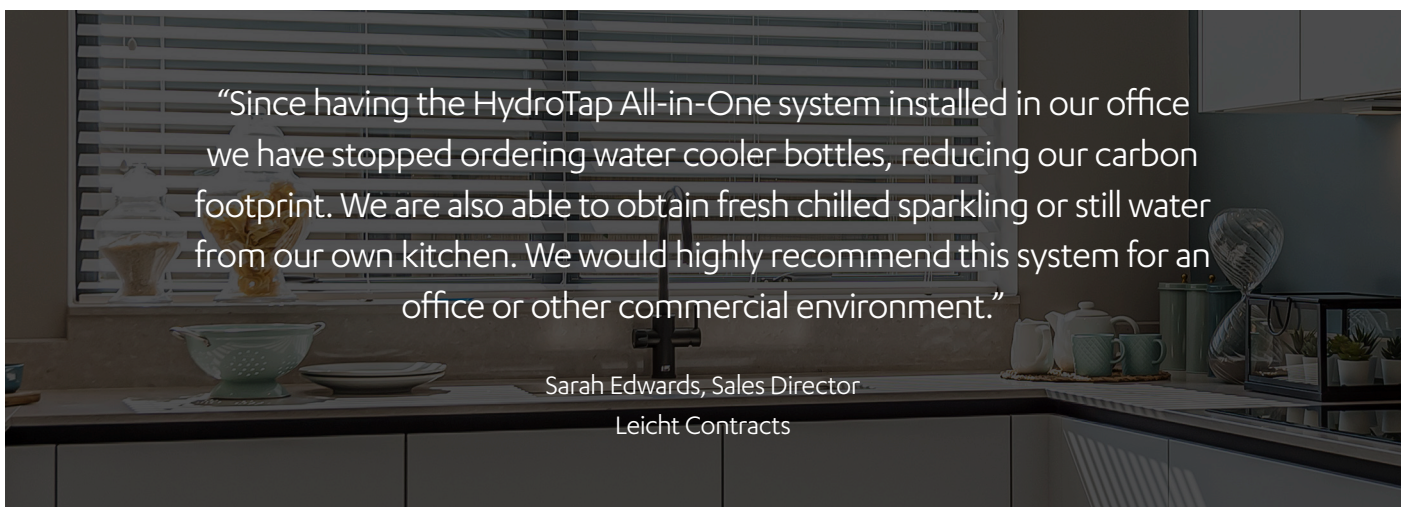

The brief

- A premium tap for nine luxury kitchen as part of Purelake Group's latest development project.
- WRAS-approved, stylish tap that would help with daily life.

The solution

Leicht Contracts specified nine HydroTap Celsius Arcs in matt black to provide the new residents of the luxurious homes with highly filtered boiling water, plus unfiltered hot and cold water for washing up. Fitting seamlessly among the other stylish elements in the kitchen, Leicht Contracts were so impressed with the HydroTap that they decided to install one of their own in their office kitchen. This means they can not only demonstrate the product to other clients, but also keep employees hydrated and reduce their use of single-use plastic water bottles while at work.
